

MAIRDISY: the dialog manager of restaurant recommendations

Welcome to our dialog manager MAIRDISY!

We would like you to test our restaurant recommendation system. First you have to test our dialog manager with two tasks and this is followed by a survey. The link to the dialog manager is given below this paragraph. The link for the survey is given below the two tasks.

Unique identifier: G3MNO

Step 1: test our dialog manager

Follow the link and press the green button 'Run'. It might take some time to install some packages. Don't worry, the packages are not installed on your computer! Just wait patiently for the system to welcome you so you can start your task. The system will automatically load for the second task after you are finished with the first task.

Link:

Task 1: Chinese, cheap, south

For this task you have to search for a restaurant serving Chinese food that lies in the south part of town and has a cheap price range. The dialog manager will ask you these questions and you just have to answer them with the preferences stated in the previous sentence. You are looking for a Chinese restaurant. The area of town is south. The price range is cheap.

After it has made a recommendation, you have to ask if there are more restaurants. It can happen that you are not pleased with the first option. It will offer you an alternative. Please confirm the alternative.

To get to the restaurant, you would like to know the address of the restaurant. The dialog manager will ask you if you would like to know some details about the restaurant, so just simply ask for the address.

If you are satisfied with his answer, thank the dialog system. This will end the task.

- Note: if you accidentally make an error while typing, just repeat your previous statement! The system will ask you to repeat this.

Task 2: Italian, south, expensive

For this task you have to search for a restaurant serving Italian food that lies in the south part of town and is expensive. The dialog manager will ask you these questions and you just have to answer them with the preferences stated in the previous sentence. You are looking for a Italian restaurant. The area of town is south. The price range is expensive.

After it has made a recommendation, you have to ask if there are more restaurants. It can happen that you are not pleased with the first option. It will offer you an alternative. Please confirm the alternative.

After the confirmation of the restaurant, you would like to know the phone number of the restaurant to make a reservation. Ask this to the dialog manager when he asks if you would like to know some details about the restaurant.

If you are satisfied with his answer, thank the dialog system. This will end the task

- Note: if you accidentally make an error while typing, just repeat your previous statement!
The system will ask you to repeat this.

Step 2: fill in the questionnaire

After completion of the two tasks, please fill in our survey. Your unique identifier is G3MNO. This will be asked in the survey.
